

arrow: cited result -> result that cites it green = attached Lean references

Stages

1687 (21 nodes)

explicit dependency
implicit dependency
editorial interpretation / comparison
modern reconstruction

green border = attached Lean references
references do not certify the historical claim

Stages

1713 (27 nodes)

- explicit dependency
- implicit dependency
- editorial interpretation / comparison
- modern reconstruction

green border = attached Lean references
references do not certify the historical claim

Proof dependencies - 1726 Principia

comparison witness: 1726 edges never supply earlier premises

Stages

1726 (12 nodes)

—— explicit dependency

---- implicit dependency

----- editorial interpretation / comparison

----- modern reconstruction

green border = attached Lean references

references do not certify the historical claim

De Motu, drafts and the proposed 1694 ordering

edge pattern gives evidence status; ochre arrows are proposed-stage edges

Stages

- NATP00090 (6 nodes)
- proposed 1694 (4 nodes)

- explicit dependency
- implicit dependency
- editorial interpretation / comparison
- modern reconstruction

green border = attached Lean references
references do not certify the historical claim

Textual comparison and proposed reordering

cross-stage comparison edges only; these are not proof dependencies

Stages

- 1687 (4 nodes)
- 1713 (8 nodes)
- 1726 (3 nodes)
- NATP00089 (1 nodes)
- NATP00090 (1 nodes)
- RS-copy-reprint (1 nodes)
- proposed 1694 (5 nodes)

- explicit dependency
- implicit dependency
- editorial interpretation / comparison
- modern reconstruction

green border = attached Lean references
references do not certify the historical claim

Stages

- 1687 (21 nodes)
- 1713 (30 nodes)
- 1726 (15 nodes)
- NATP00089 (3 nodes)
- NATP00090 (7 nodes)
- RS-copy-reprint (1 node)
- proposed 1694 (5 nodes)

— explicit dependency
- - - implicit dependency
- - - - editorial interpretation / comparison
- - - - modern reconstruction
